

ANNOUNCEMENT I

Dear Young Researchers,

We are delighted to invite you to participate in the 4th edition of **MycoRiseUp! Youth in Mycology Conference** - a scientific conference focused on the fascinating world of fungi. This event brings together young scientists, researchers, and enthusiasts to explore the latest advances in the study of fungi and their important role in our environment.

The MycoRiseUp! Conference will feature **keynote speakers, presentations and posters** that will cover a wide range of topics related to fungi. This is a unique opportunity for young scientists to interact with each other and experts in the field in a non-judgmental environment, share their research findings, and network with peers who share their passion for fungi.

The conference will be held in **the Institute of Agrophysics Polish Academy of Sciences in Lublin between 20th and 21st of May 2023**. It is co-organized by the Fungal Biotechnology Section of Polish Mycological Society and PhD Candidates from the Institute of Agrophysics Polish Academy of Sciences, and Maria Curie-Skłodowska University in Lublin. We encourage all young scientists, including graduate students and doctoral researchers, to attend and participate in this exciting event. **Registration is now open**, and we encourage you to submit your participation in the event in one of the forms:

- 12 minute talk (with additional 3 minutes of discussion with other participants and Scientific Committee)
- poster (A0 format, needs to be printed by the participant, will be evaluated by the Scientific Committee).

The past editions of the Conference had a wide range of topics discussed, including the **biology and ecology of fungi, fungal biotechnology, interactions of fungi, and pathogenic fungi in relation to humans**. For this year's conference, we are accepting original research papers and literature reviews. The specific scientific sessions will be determined based on the interests of the registered participants.

Scientific Committee of this year's edition of MycoRise Up! consists of:

- **Magdalena Frąć** (Institute of Agrophysics, PAS, Lublin, Poland)
- **Magdalena Jaszek** (Maria Curie-Skłodowska University, Lublin, Poland)
- **Julia Pawłowska** (University of Warsaw, Poland)
- **Wojciech Radzki** (University of Life Sciences, Lublin, Poland)
- **Małgorzata Ruszkiewicz-Michalska** (University of Łódź, Poland)
- **Sylwia Różalska** (University of Łódź, Poland)
- **Urszula Świderska** (Maria Curie-Skłodowska University, Lublin, Poland)
- **Adam Waśko** (University of Life Sciences, Lublin, Poland)
- **Marta Wrzosek** (University of Warsaw, Poland)

The Scientific Committee will accept presentations/posters on the basis of the abstract evaluation and might change the form of the presentation.

Any abstracts submitted after the deadline will not be considered for inclusion in the abstract book. The fee for the conference has not yet been determined but it will not exceed 100 PLN. The exact fee will be announced in the middle of March.

Important dates:

- 31.03.2023 - deadline for registration (<http://tiny.cc/MycoRiseUp2023>)
- 28.04.2023 - deadline for abstract submission (submission form will be made available later)
- 28.04.2023 - deadline for fee payment

Soon, you will find additional information about the Conference, including Conference regulations and important details such as location and possible accommodations, on our website: <https://mycoriseup.wixsite.com/konferencja>, that contains all the information on previous editions, and will be updated soon.

If you have any questions, please contact us at mycoriseup2023@ipan.lublin.pl. Do not hesitate to send this invitation to your mycological peers.

We look forward to seeing you at MycoRiseUp! Conference and sharing our collective knowledge and enthusiasm for the study of fungi.

Sincerely,
Organizing Committee:

*Dominika Siegieda
Mateusz Mąćik
Michał Pylak
Wiktoria Maj
Klaudia Szpilksa
Sylwia Stefanek
Wiktoria Piątek-Gołda
Sebastian Piskorski*
